Hand washing powder

Sahba hand washing powder is produced using a new formulation with a high cleaning strength and effective enzymes. It removes the worst stains, and softens the texture of the clothes with a high quality not harming the skin.

* Note that these powders have a very high foaming strength, and can cause damage to automatic machines and electronic parts.

Laundry powder

Sahba laundry powder has high cleaning and washing strength at any temperature (especially in cold water). Unique compounds and enzymes eliminate all kinds of stains, such as: grease, blood, ice cream, chocolate, etc. and make your clothes shine and do not damage the fabric of clothes. Sahba washing powders are easily dissolved in water and you can wash a lot of clothes with a small amount of this powder.
